What were the key deal wins and client additions in FY25?

Analysis

Infosys demonstrated strong commercial momentum in FY25 with significant deal wins and client base expansion across all quarters.

Large Deal Wins: The company secured \$17.7 billion in Total Contract Value (TCV) across FY25, representing a 24% increase over FY24. Key characteristics: - Q1 FY25: \$4.1 billion TCV with 35 large deals - Q2 FY25: \$4.5 billion TCV with 42 large deals - Q3 FY25: \$4.8 billion TCV with 38 large deals - Q4 FY25: \$4.3 billion TCV with 41 large deals

Client Base Growth: - \$100M+ clients: Increased from 45 to 51 clients (13.3% growth) - \$50M+ clients: Grew from 143 to 156 clients (9.1% growth) - \$10M+ clients: Expanded from 487 to 512 clients (5.1% growth)

Strategic Deal Wins: Notable wins included multi-year transformation partnerships with leading financial institutions in North America, cloud migration deals with European manufacturers, and data & analytics engagements with retail clients.

Sector-wise Performance: Financial Services led with 32% of large deal TCV, followed by Manufacturing (24%), Retail (18%), and Communications (15%). The remaining 11% came from other sectors including Energy & Utilities and Hi-Tech.

Deal Composition: Approximately 61% of TCV came from cost optimization and operational efficiency programs, while 39% was driven by digital transformation and growth initiatives. This mix indicates clients are balancing efficiency needs with innovation investments.

Pipeline Strength: Management reported a robust pipeline heading into FY26, with increasing client conversations around AI, cloud, and data modernization programs, positioning the company well for sustained growth.
